

Buy Here Pay Here

SELF-SERVICE KIOSK SOLUTION

OVERVIEW

KIOSK Information Systems, industry leader in self-service payment solutions, has partnered with Buy Here Pay Here (BHPH) software provider AdComp Systems to deliver a turnkey Dealership platform. The **Automated Dealership Cashier Kiosk** provides a standard cash management application available in three different kiosk configurations that address the range of Dealership requirements and budgets. Solution benefits include:

- **Accelerated Revenue Recognition:** Multiple payment options (cash, credit / debit cards, checks) ensure daily collections
- **Reduced Costs:** Automated cashier frees up existing staff to support value-add customer services and sales
- **Decreased Customer Wait Time:** Customers can quickly self-initiate and complete payment transactions thereby improving office flow
- **Secured Cash Storage:** Money stored inside locked kiosk reduces risk of theft and mishandling of cash
- **Flexible Ownership Model:** Purchase and lease options (vs. industry 3-year rental model) provide more cost-effective paths to operate a kiosk solution through end of life (~ 5+ years)

SOFTWARE APPLICATION

AdComp Systems' BHPH application presents user-friendly screens that intuitively guide customers through the payment process. The solution supports cash, debit / credit cards, or check payments, and provides a receipt upon completed transaction. The **Automated Dealership Cashier Kiosk** solution is available in multiple languages, integrates with multiple payment systems, updates existing Dealership (Financial) Management Systems (DMS), provides real-time online transaction and alert reports, has web IVR functionality, and comes with mobile payment reminders.

The UI can be re-skinned to match dealership branding. Software patches and updates keep the kiosk application current and secure. Further, AdComp Systems can arrange armored car services for the safe transfer of cash.

HARDWARE MODELS

The solutions are presented in three configurations, allowing BHPH Dealerships to choose the right platform for their needs. Price includes one-time purchase price for kiosk and software application, as well as an annual fee for Software Maintenance & Reporting.

Flexible options include a 3-year hardware Warranty (with spare parts provisions) and Field Services package designed to expedite repairs and minimize kiosk downtime.
