Convenient & Compact for Streamlined Check-In

The versatile Flex kiosk delivers a sleek check-in solution designed for modern healthcare environments. Its 21” widescreen display provides a clear, comfortable interface for any software platform, while the modular design lets you deploy it as either a countertop unit or a sturdy floor-standing kiosk. With durable construction and flexible mounting options, Flex offers a professional, space-efficient solution to streamline patient input and elevate your facility’s front-end experience.
