

Layered transaction capability for accelerated ROI.

THE CONTOUR FINANCIAL SERIES KIOSKS

TRANSACTIONAL POWERHOUSE

The Contour Financial Series lends itself beautifully to deep layered functionality commonly required in bill payment, financial, and loyalty applications within Retail, Healthcare, Banking and many other sophisticated self-service markets. The clean exterior designs and 19" LCD provide an intuitive customer experience and a professional transaction presentation.

The Contour and Contour Lite are KIOSK's most flexible and secure standard models.

- **The Contour** (shown left) is for both cash acceptance and cash dispensing.
- **The Contour Lite** (shown right) is typically for cash acceptance only, and provides a smaller footprint.

CONTOUR
Cash In / Cash Out

Both feature four-point pry-proof doors and multiple security locking options for tight cash security. Generous interior space affords ample room for all financial component sets, making the Contour Series an optimal fit for high-volume commercial transactions. Options include cash acceptance / dispensing capabilities; credit / debit / check processing, pin pad, multiple receipt printing selections, scanning, and more.

The series features front-access hinged door(s) for fast and simple service. Sliding internal trays and isolated component placement access are standard features that make for easy updates and minimal service costs.

See reverse for a detailed list of Contour Series models, specifications and dimensions.

CONTOUR LITE
Cash In Only

ISO 9001:2008 Certified
