

The Stealth Series

The Stealth Series provides a line of fully functional multimedia kiosks. Sleek in appearance, this kiosk fits into almost any environment and is available in a variety of finishes and colors to enhance any self-service venue.

Designed for Style and Engineered for High Performance

The Stealth combines a compact footprint and rugged field performance with standard model economy. This series offers generous LCD size, rugged keyboard and trackball options, and is available with a full range of overhead and panel signage to add visual impact to your application. Outdoor model options enable an expanded customer reach to an open-air self-service environment.

One of KIOSK's most widely deployed models, the Stealth is designed to accept a wide variety of optional components from biometrics to printers. Additionally, the Stealth features hinged doors and readily accessible components for simple and efficient field maintenance. Custom graphic options emphasize corporate branding and provide optimal visibility for quick consumer adoption.
